Another Rough Rider appointed to office. That Rough Rider regiment must have been a brigade.

The plurality rule prevailed in the primary for county officers in Baker, all the candidates agreeing thereto.

Close observers of Secretary Shaw's presidential boom are becoming convinced that there is considerable "lost motion" about it.

Secretary Shaw says the friends of the tariff are going to revise it. And if it is friends he is talking about, the revision probably will be "up."

From the way returns are already coming in the administration will have a large and varied assortment of lame ducks to take care of next fall.

With the thermometer crawling toward the century mark, the adjournment of Congress comes appreciably nearer in spite of the amount of legislation still unfinished.

England's advice to the anarchists will now be, "go West, young man," since it is a moral certainty that no nation will let them go East and England no longer wants them.

While the "grand old party" is full of confidence it can hardly help feeling nervous when it remembers that there ought to be no corporation campaign contributions in 1908.

An inquisitive correspondent wants to know whether all those Chicago packers are vegetarians. Couldn't answer for the packers, but their employees certainly ought to be.

Don't think the beef trust barons have no friends, as the Republican members of the Committee on Agriculture of the House of Representatives, headed by Chairman Wadsworth, are evidently trying to modify harsh legislation.

INCREASE OF ADVERTISING.

One of the most notable facts connected with a country newspaper of today is the large increase in the amount of advertising of local business houses. The change has taken place gradually, and has been marked especially during the past year or so. It is highly significant, and an inquiry as to the cause of it is of great profit, not only to those in the newspaper business, but to every business man and citizen of the town as well. The change, in brief, means that local merchants have found it necessary to call attention to their goods because of the immense competition they face, the most deadly element of which is that from the great stores of the large cities. These great establishments advertise their wares most lavishly, and the metropolitan newspapers which contain their advertisements are distributed over the country, some one paper of which enters nearly every home. The result is that these metropolitan establishments have built up an immense mail trade. In Gainesville and indeed in most of the towns hereabouts, there is no occasion for this out-of-town buying. The duty of citizens in the matter is plain, and where other things are equal support should be given local dealers. Our merchants have invested their capital, have erected buildings which are the pride of the city, and have established concerns which are almost metropolitan in character. They have built up our city, and it is only a fair return that they have the city's trade. To turn trade otherwise, even in the line of small purchases, which are great in the aggregate, is to invite the decline of property values in the city.

SENATOR MALLORY.

The St. Augustine Record says, in an interview in The Washington Post, United States Senator Mallory mildly deprecates the possible impression that illness has prevented him from duly attending to his official duties, and says: "If all the days that I have been present in the Senate were added together, I think it would be found that since the convening of Congress I have had a record of attendance equaled by few of my colleagues. It is true that I have at times been ill, but only a few days at a time, with the result that I have been in my seat a great deal of the winter. My health has much improved." The Senator's many Florida friends will be glad to know that his condition has not been as bad as was feared.

The good people of Oklahoma are sure of Statehood at last, a boon they would have enjoyed ten years ago if the Democrats had been in power, for everyone knows the Republican leaders kept it out for fear of having the Democratic representation increased in the Senate. Now, Oklahoma, show your "appreciation" of this outrage which you have endured by sending five Democrats to the House and two to the Senate, for it would have been probably ten years longer before Statehood would have come from the Republicans had it not been for the tireless fight the Democrats made for you.

Little Delaware has turned down Addicks at last, and elected Dupont, the powder king, to the Senate. But is this very much better than electing Addicks? Is a man who drives his competitors out of business and into ruin, as Dupont has done, any better than a millionaire who distributes all of his millions in buying votes? Pay your money and take your choice.

The Koresians, a free lover organization, wants to run the Democratic party of Lee county. They were properly refused the right to vote in the primary.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surface of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

The catalogues of the Florida Female College which are now being distributed throughout the State set forth the many excellent advantages which Florida has provided for her girls and young women. The faculty is composed of able men and women. It is quite certain that no State in the South has provided superior opportunities for the higher development of her women than Florida has done in this college. This is as it should be. The best is not too good for our girls. During the first session of the college there were 205 young women in attendance, which is indeed an excellent showing for the first year.

In these days of strife between two great political parties we must remember that after all we are just a band of brothers here an earth, traveling from the cradle to the grave. We live side by side, our children attend the same school and after the smoke of the battle has cleared away, we will still be friends and neighbors. Let the bitter things go unsaid. At best, life is short, and we get out a full measure of sorrow.

The beef barons are very insistent that their packing houses are perfectly clean and that no unwholesome meat is sold to the public. At the same time we hear that a desperate effort is being made "to clean up and renovate" the packing establishments. Why not abolish the tariff on beef and cattle and so give the people competition with the trust and thus reduce the price to a reasonable basis?

It seems impossible to make necessary public improvements in Tampa. A recent decision of the Supreme Court declares the sewerage and paving contracts null and void, and all work has ceased. Considerable work has been done and it is doubted if the contractors can get pay for same.

Mayor Frecker of Tampa has sent his first message to the city council. It is an able and well prepared paper in which he declares for municipal ownership of the waterworks and the passage of an ordinance fixing the maximum rates to be charged for gas and electric lights.

BAD BLOOD

I had trouble with my bowels which made my blood impure. My face was covered with pimples which no external remedy could remove. I tried your Cascarets and great was my joy when the pimples disappeared after a month's steady use. I have recommended them to all my friends and quite a few have found relief."
